WHY IS THIS PROFESSIONAL WINETASTING DIFFERENT ?

Because it is the union of passionate winemakers sharing the same philosophy and who had the idea of pooling their sales forces and logistics. The goal is to value the work of each and give a tool that is simple, flexible and rich to our customers.

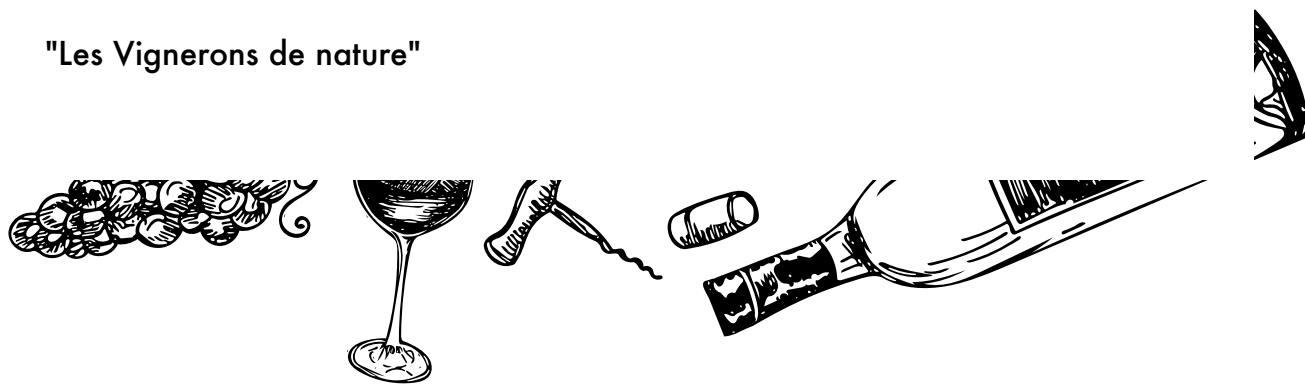

All wines come from organic, biodynamic agriculture or from winemakers who deeply respect their terroir.

Today, we have 30 vintners representing the major wine regions of France and Piedmont in Italy, a brewer and spirits.

The group offers to mix your orders by buying at the direct domain price to optimize transport costs, reduce your inventory and improve your treasury.

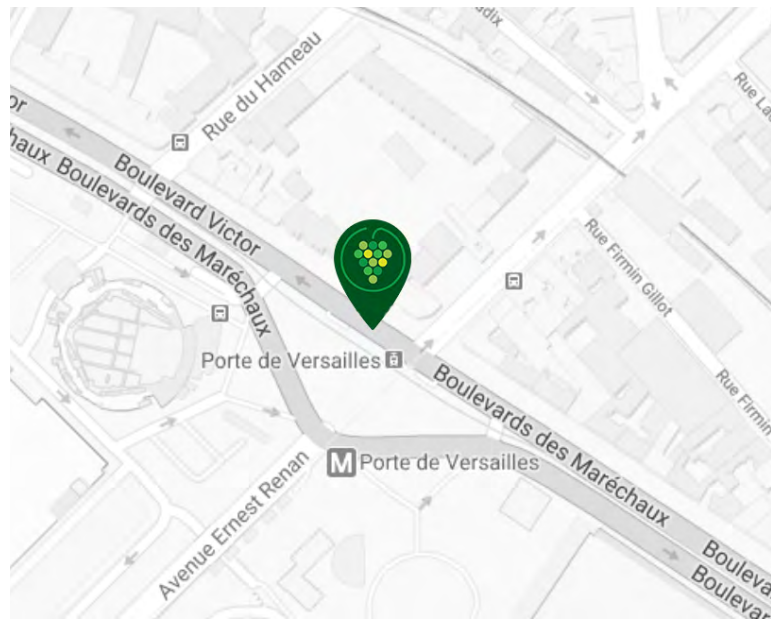

We wish you nice tastings with us and a long life to our association!

"Les Vignerons de nature"
